

## About the FBRTC

The Franklin & Bellingham Rail Trail Committee is a volunteer advocacy group, is working with the MA Department of Conservation & Recreation and officials in both towns to develop the SNETT into a universally accessible trail and a valuable resource for all.

Future plans include expanding the trail into downtown Franklin, as well improving parking, crossings, seating, and much more!

## Get involved!!

The SNETT runs 22 miles from Franklin to the CT border in Douglas MA, where it continues into Connecticut a further 55 miles as the Air Line State Park Trail. It also intersects with the Blackstone River Greenway, a 48-mile bikeway connecting Worcester, MA to Providence, RI.

The SNETT is among approximately 70 trails throughout the state designated by the MA Department of Conservation & Recreation (DCR) as a Healthy Heart Trail.

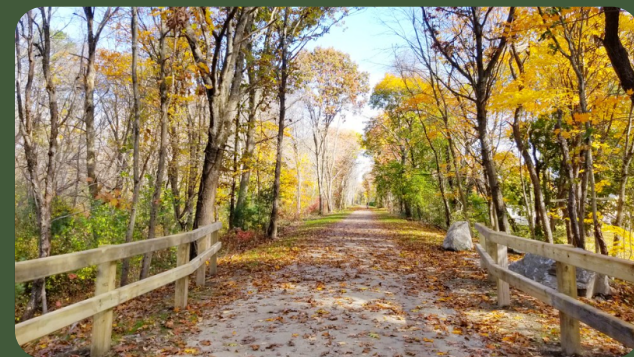

You can enjoy many activities such as biking, hiking, walking, horseback riding, cross country skiing, snowshoeing, running and nature exploring. Have fun!

## Welcome to the SNETT

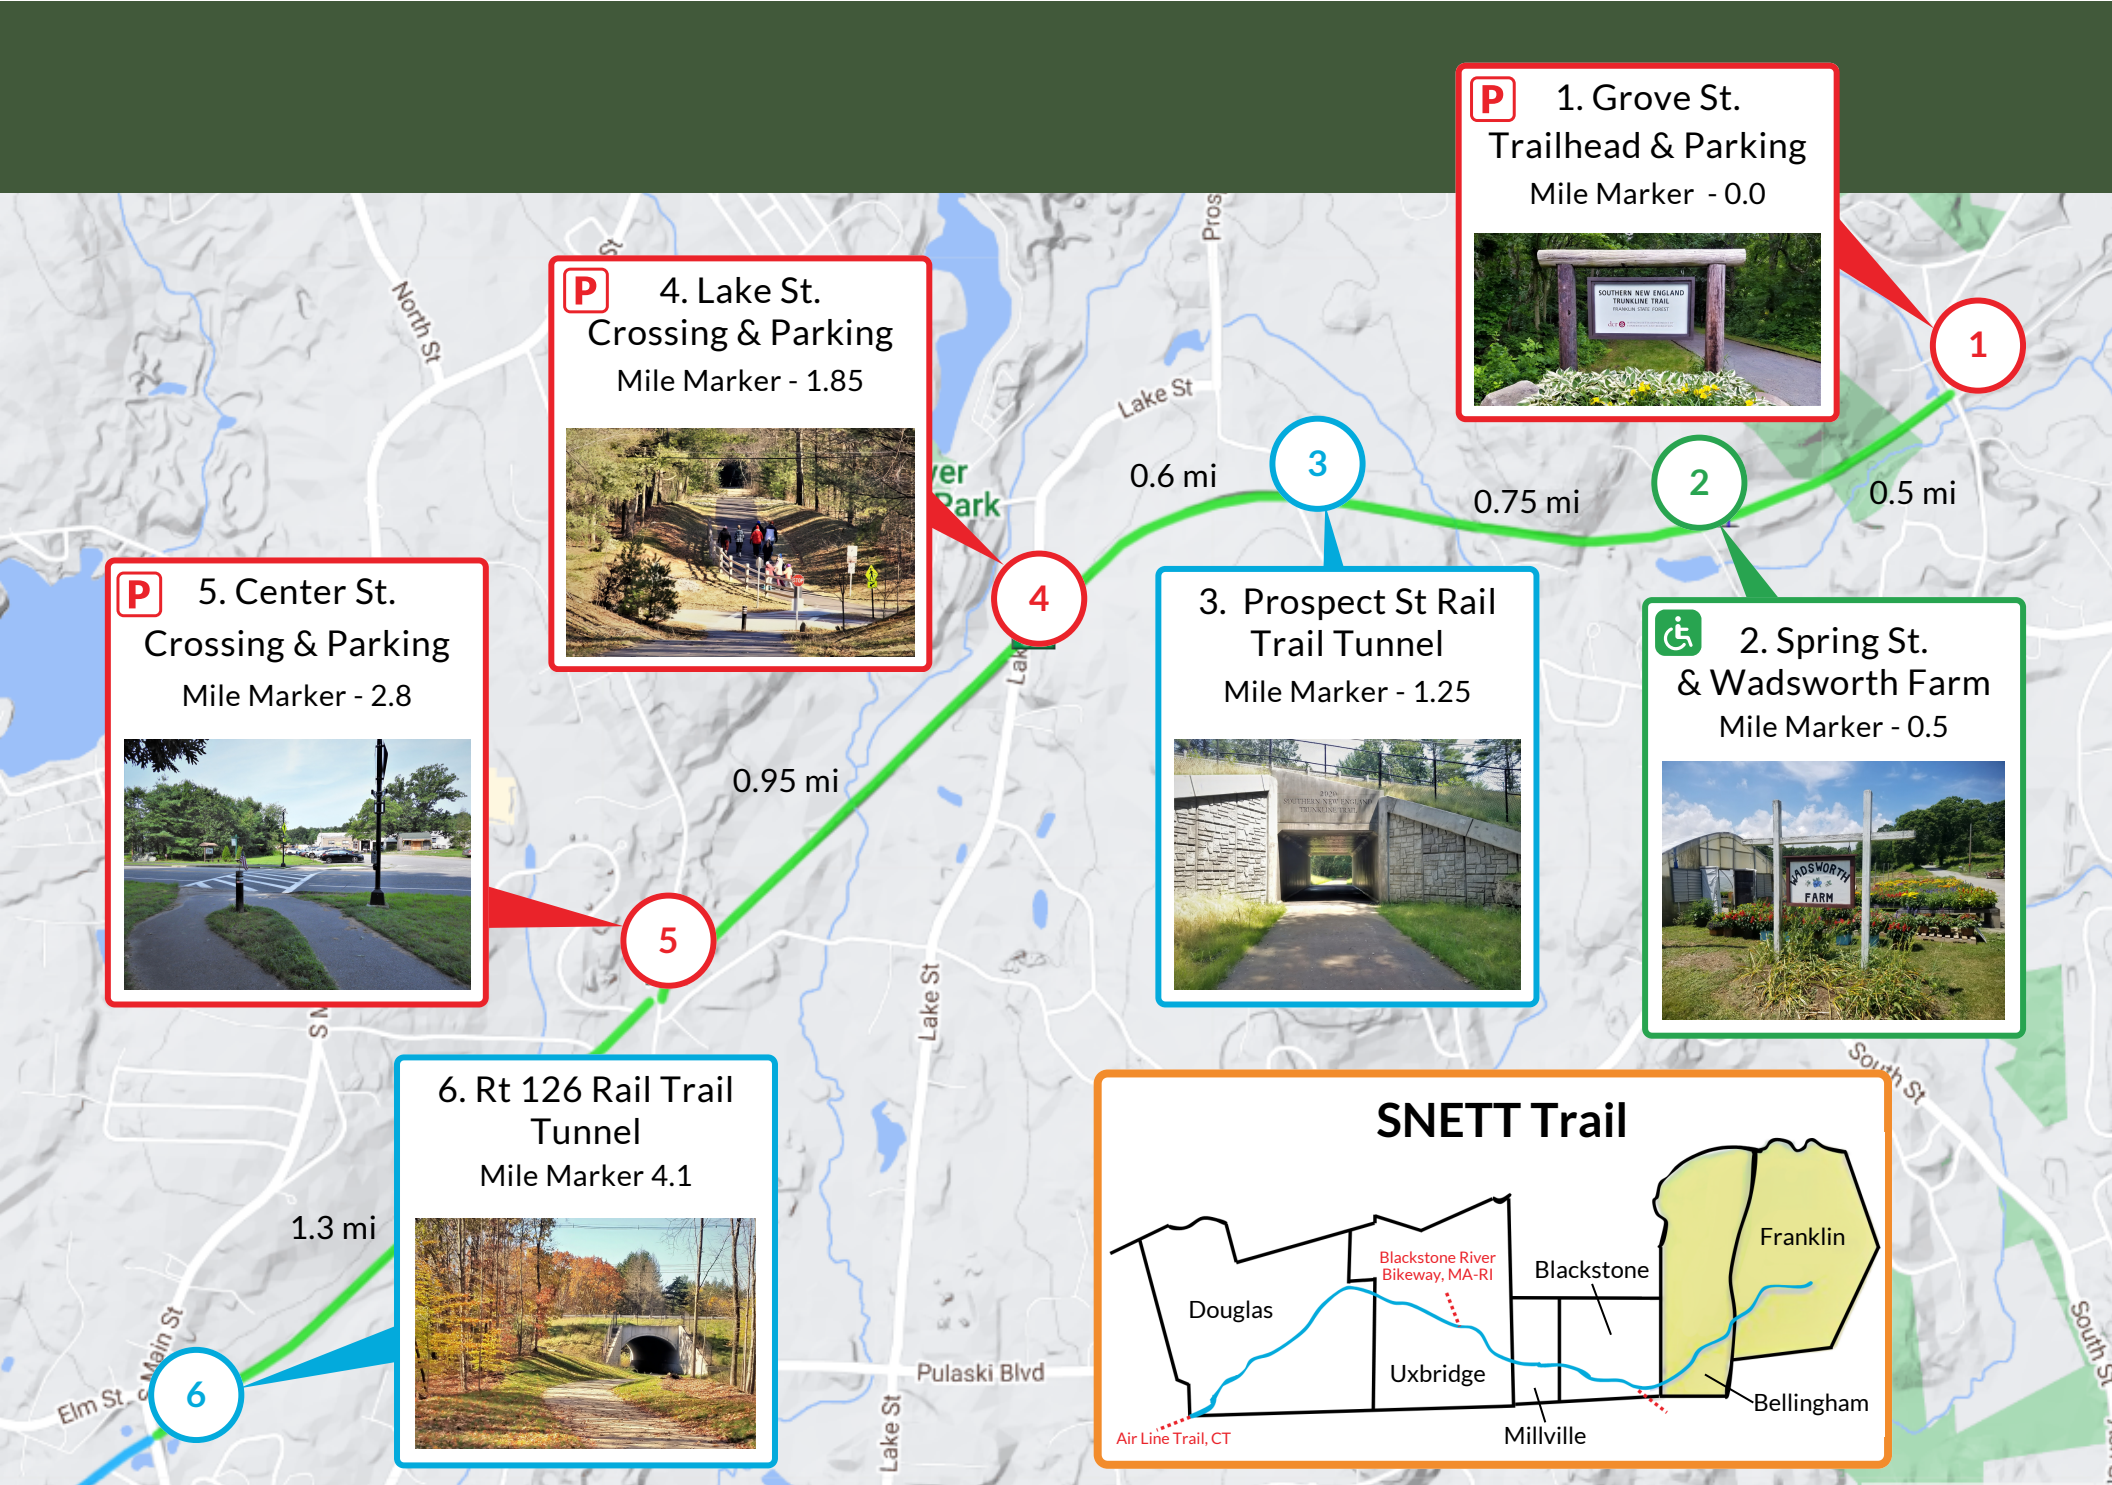

One of the longest trails in southern Massachusetts, the Southern New England Trunkline Trail (SNETT) is built on the site of the former New England & New York Railroad.

**Please respect the trail and our neighbors!**

The SNETT is a trash/dog waste "carry-in carry out" facility. Please keep to the marked trail.

**NO MOTORIZED VEHICLES**

Walking - Hiking - Biking - Cross Country Skiing - Snowshoeing - Exploring Nature
